The "Rearchitecting the Financial System" online course jointly developed by CFTE and Elevandi Education in conjunction with the Singapore Fintech Festival 2023, offers an insider view into the global transformations in the financial system.

Taught by the world-class speakers of Singapore Fintech Festival 2023, the course explores the key drivers behind the transformation of finance by addressing topics including digital infrastructure, payments, digital money and platforms for SMEs. Led by Sopnendu Mohanty, Chief FinTech Officer of MAS and Chairman of Elevandi, the programme combines expert industry insights, breakdown of real-world case studies, structured knowledge and curated panels of the Singapore Fintech Festival 2023.

The course is designed to upskill thousands of finance professionals, policy-makers and entrepreneurs on the transformation of the financial system and aims to impact more than 5000 participants by 2024.

Register for the course now for USD 40. Students and policymakers may enjoy a concessionary rate of USD 20. For a more detailed course description and additional information, visit the programme's dedicated page [here](#).
