

ELEVATE YOUR MOTOR INSURANCE EXPERTISE

**Exceptional Learning,
Tailored for Professionals**

Click on **Motordata Research Consortium (MRC)** to find out more!

The Singapore College of Insurance is thrilled to partner with Motordata Research Consortium (MRC) to offer a specialized range of eLearning courses designed for the insurance industry. These courses are designed for insurers, repairers, adjusters, and those keen to advance their knowledge on motor claims' estimation and compensation.

The courses are expertly designed with a range of topics including advanced driver-assistance systems (ADAS) where participants can learn about the systems' components and functionalities. Electric vehicle courses cover crucial knowledge from safety principles to battery management systems. Additionally, car body repair courses teach latest techniques in surface preparation and painting, while technical updates keep professionals informed on new automotive technologies and standards to provide industry professionals with the right knowledge on motor claims' estimation and compensation to ensure that vehicles damaged in an accident are repaired using the right methodology, equipment, and skills, to be safely put back on the road.

Comprehensive Course Categories

Advanced Driver-Assistance Systems (ADAS):

Levels 1 and 2 courses available.

Electric Vehicles (EV):

From basic awareness to advanced repair techniques.

Car Body Repair & Paint

Techniques in adhesives, bonding, and cosmetic repairs.
