### KEY LEARNING OUTCOMES

By the end of the programme, participants will be able to:

- Know the history of Cyber risks and understand the Cyber related regulation landscape.
- Understand the tools used in Cyber risk management and the limitations of traditional insurance products in this regard.
- Understand the coverage of as well as underwriting and claims management issues related to Cyber Insurance.
- Know the importance of Pre-loss and Post-loss service reviews in respect of Cyber losses.
- Understand the challenges faced by risk managers and organisations in arranging or handling Cyber Insurance.

### FOR WHOM

- Businesses and organisations who wish to have a better understanding of the threats posed by Cyber risks and how to mitigate such risks.
- Directors, CEOs, CFOs, management, legal, compliance, IT personnel and risk managers of any organisation who wish to gain an in-depth understanding of Cyber security, trends and regulatory consequences of Cyber breaches.
- Insurance practitioners who wish to have a better understanding of Cyber Risks Insurance.
- Loss adjusters dealing with first-party as well as third-party losses arising from Cyber-attacks and data breaches.
- Lawyers and legal advisors handling data protection, Cyber risks and information technology related issues.
- Consultants dealing with Cyber risks and protection issues as part of an overall risk management framework.

### PROGRAMME HIGHLIGHTS

There has been a lot of discussion recently on cyber risk exposures faced by enterprises and their related risk management solutions. Cyber Insurance is definitely one of the key solutions in addressing such risks. Nonetheless, the more one hears about cyber risks, the more questions one will have in mind. Do we really understand Cyber Insurance as it is at the moment?

This product is still relatively new to the Asia-Pacific region. There is not much insurance experience or data in Singapore where Cyber Insurance is concerned. There are a few companies in Singapore providing this solution at the moment and all of their product coverages and wordings are different. This programme covers the nature of cyber risks, trends and issues around the globe and examines the Cyber Insurance market in detail, including market trends, policy coverages, underwriting, claims, cyber-related vendor service, e.g. preloss and post-loss service reviews. It also examines the factors to be considered when looking for Cyber Insurance solutions.
