FOR WHOM

Reinsurance or general insurance practitioners with 3 to 5 years of experience wishing to gain a better understanding of how Proportional Treaties are being used in reinsurance.

PROGRAMME HIGHLIGHTS

Reinsurance may be a relatively simple concept to grasp. However, at the operational level, some of its practices and technicalities can be quite complex and difficult to comprehend. This is at least to the uninitiated, or those still new to reinsurance. Through lectures, case studies and discussions conducted during this 2-day programme, participants will be equipped with detailed technical and practical knowledge of how the different types of Proportional Reinsurance Treaties can be structured and used in the reinsurance market, and most importantly, the thought processes behind such practices.

KEY LEARNING OUTCOMES

By the end of the programme, participants will be able to:

- Distinguish between the different applications of Proportional and Non-Proportional Reinsurance.
- Explain how Facultative Reinsurance and Proportional Treaties function and their typical applications.
- Highlight the main Proportional Treaty clauses and explain their application.
- Describe how Proportional Treaties are used for specialised classes or in non-traditional applications.
