July 2022 Edition

PROGRAMME HIGHLIGHTS

"Cyber threats" are widely reported in the media nowadays. But do we really know what are these cyber threats? This programme will enable participants to appreciate the reality of cyber threats and scale of potential damage due to cyber-attacks. Through video lectures and quizzes, participants will not only understand areas of vulnerabilities that could be exposed to cyber-attacks but be able to develop the best practices of cyber hygiene to manage cyber exposure. Various cyber hygiene case studies will be shared and analysed culminating in an examination of a phishing attack and how one can defend against it. This programme also covers the cyber hygiene practices detailed in MAS Notice No.132-Notice On Cyber Hygiene and the Data Loss Protection Guidelines For Insurance Agents, jointly issued by LIA and GIA.

FOR WHOM

- Those who wish to gain foundation knowledge in what Cyber Hygiene is.
- Insurance intermediaries who wish to know about cyber threats and developing sound cyber hygiene practices.
- All who wish to learn more about cyber threats and cyber hygiene practices.

This course is meant to enable insurance agents to gain an understanding of cyber threats and good cyber hygiene practices. However, it is not a compliance course to teach agents on how to adhere to the relevant regulatory guidelines.

COURSE OUTLINE:

1. Cyber Threats
2. Cyber Vulnerabilities
3. Cyber Hygiene and Management
4. Cyber Hygiene Notice & Data Loss Protection Guidelines
5. Cyber Hygiene Case Studies

LEARNING OUTCOMES

At the end of the course, participants will be able to:

- Appreciate that cyber threats are real and the scale of potential damages due to cyber attack.
- Understand areas of vulnerabilities that could expose us to cyber-attacks we should be aware of.
- Understand the growing cyber vulnerabilities due to the impact of Covid-19.
- Identify the best practices of cyber hygiene to manage cyber exposure.
- Discuss the six cyber hygiene practices covered under MAS Notice 132 and Data Loss Protection Guidelines for Insurance Agents.
- Discuss the various cyber hygiene case studies and understand how we can manage cyber threats in our day to day applications.
- Understand the anatomy of a phishing attack and how we can defend against it.

COURSE DURATION

Course Duration: 3 hours

Assessment Duration: 0.5 hour

Assessment Format: 10 Case Studies
