# International Sanctions & Vessel Monitoring, ESG in Maritime Decarbonization, Cyber Risks, and Emerging Maritime Issues

[Register Here](#)

**Venue:** To be advised

**Dates:** 7 & 8 Oct 2024

**Time:** 9.00 a.m. to 5.00 p.m.

## Programme Highlights

This course offers a blend of expert insights and practical knowledge, equipping maritime professionals with the tools to effectively address the dynamic challenges and opportunities in their industry. Participants will gain in-depth knowledge of critical topics like International Sanctions & Vessel Monitoring, ESG in Maritime Decarbonization, Cyber Risks, and Emerging Maritime Issues. The course will empower professionals with the skills to navigate the complex waters of maritime risks, insurance nuances, and evolving international regulations.

## For Whom

- Professionals in the shipping industry, including shipowners, charterers, cargo owners, freight forwarders, ports & terminals, as well as banks and lawyers
- Underwriting and claims personnel in insurance companies
- Loss adjusters, average adjusters, and salvage companies
- Insurance intermediaries.

## Key Learning Objectives

At the end of the programme, participants should be able to:

- Gain a thorough understanding of the coverage specifics for hull and cargo under marine war and strikes insurance, including geographical limits and piracy risks.
- Acquire knowledge on the purpose and imposing entities of international sanctions, the countries affected, and the impact of sanction evasion and vessel monitoring on marine insurance.
- Develop insights into the various cyber risks confronting the maritime industry, the nature of cyber-attacks, and the implications for insurance policies, including “silent cyber” and exclusion clauses.
- Engage with the latest changes in regulatory policies concerning greenhouse gas emissions from maritime shipping and their insurance implications.
- Delve into the complexities of carbon trading and the challenges associated with insuring alternative fuels for commercial vessels.
- Examine the broader impacts of Environmental, Social, and Governance (ESG) factors on maritime insurance, including the Poseidon Principles and the Sea Cargo Charter.

## Programme Outline

### Marine War & Strikes Risks

- The spectrum of marine war and strikes insurance, diving into the specifics of hull and cargo insurance risks.
- The geographical limits and nuances of war and strikes insurance coverage.
- Piracy risks and the corresponding insurance coverage, enhancing your risk management strategies.

### International Sanctions

- The complexities of international sanctions, including their purpose and the entities imposing them.
- The countries currently under sanctions and the different types of sanctions in place.
- The challenges of sanction evasion, vessel monitoring, price caps on Russian oil, and the implications for marine insurance.

### Maritime Cyber Risks

- The types of cyber risks faced by the maritime industry.
- Real-world cyber-attacks on maritime entities and the definitions of cyber risk and cyber-crime.
- "Silent Cyber" in insurance wordings and common cyber exclusion clauses in marine insurance policies.

### Maritime Environmental Issues and Insurance

- The latest regulatory changes regarding greenhouse gas emissions in maritime shipping.
- The intricacies of carbon trading and the insurance challenges associated with alternative fuels for commercial vessels.
- The liability potential for various maritime stakeholders due to carbon emissions.
- The Poseidon Principles, the Sea Cargo Charter, and their implications for marine insurance in the context of Environmental, Social, and Governance (ESG) factors.

## Programme Leader

**Stephan Harris** has over 47 years of experience in marine insurance, working as an underwriter at two Lloyd's syndicates (1975-1987), and at the Cornhill Insurance Company, a part of the Allianz group (1987-1994). For the last 28 years, he has been a Lloyd's registered broker with Marsh Ltd UK, serving as a Senior Vice President for over 17 years. Stephen regularly leads popular marine insurance training courses in the UK and conducts seminars globally for various organizations. His courses have gained accreditation by the Chartered Insurance Institute. During COVID, he held online seminars and has recently resumed in-person seminars in various international locations. Additionally, Stephen is a lecturer for the Lloyds Maritime Academy and the Chartered Insurance Institute, a speaker at the APPG on the Polar Regions, and chairs an industrial advisory board at Cambridge and Cranfield Universities.

## Programme Fee

Full Course Fee (incl. of 9% GST): S\$1,079.10

Funding to be advised.
