Business Interruption Insurance: Back To Fundamentals

[Register Here](#)

Venue: To be advised

Dates: 24-25 June 2024

Time: 9.00 a.m. to 5.00 p.m.

Programme Highlights

Business interruption insurance is arguably the most important business insurance cover but one of the least understood. In today's globalised and highly interconnected business environment, Business Interruption (BI) Insurance can often be the critical difference in whether a business recovers from, or survives a serious catastrophe, such as fire, windstorm or earthquake. While most practitioners may have a high-level appreciation of this class of insurance, many do not fully grasp the details of how the policy works in practice.

This 2-day programme aims to demystify BI Insurance and provide participants with a comprehensive and sound technical understanding of the principles of and practices in underwriting this specialised class of insurance. Participants will also work on various assignments to deepen their understanding and appreciation of BI. Specials BI topics like Cyber BI and Delay in Start-up (DSU) insurance will also be discussed.

For Whom

- Insurance and Reinsurance underwriters; as well as Insurance and Reinsurance Brokers seeking to gain a deeper understanding and "know-how" in handling BI Insurance.
- Insurance practitioners wishing to gain a working knowledge of how BI Insurance risks are underwritten
- Also suitable for Claims Practitioners seeking to know how BI claims are prepared and adjusted.

Key Learning Objectives

At the end of the programme, participants should be able to:

- Explain what BI is and its importance to businesses.
- Highlight the main features and terms of the BI Insurance policy form.
